Special Anniversary Offer

Dear Poseidon User,

As time goes by... It seems like yesterday that Dr. Marko Boger, founder and CEO of Gentleware AG, committed his work to ArgoUML, one of the first open source projects in UML. His aim was to provide an extension of ArgoUML with clearly improved usability and stability. It was on November 27, 2000, when he set up his own company and started marketing Poseidon for UML, a modern UML tool with an intuitive user interface.

And here we are, exactly three years later - looking at a company with a UML tool so widely spread all over the world that the name, *Poseidon for UML*, has become a popular brand with different editions for different requirements of our user community. Within these 3 years our product range has expanded from a free Community Edition to professional editions that are continuously enhanced to cover the needs of more and more professional applications.

We would like to take this opportunity to thank you for your support during the last 3 years. Your constructive feedback has always been more than welcome and helped to improve our product. We therefore hope that this teamwork will continue and grow further in order to guarantee products based on our customers' needs. So celebrate our 3rd anniversary with us and benefit from a special anniversary offer:

- » [Anniversary Offer](#) 
- » [Seminars](#) 
- » [OOP fair Munich](#) 
- » [Mailinglist](#) 

3rd Anniversary Offer: Buy 2 get 3

Profit from our 3rd anniversary offer:

3 years Gentleware AG and 3 years Poseidon for UML have led to a Professional Edition that has created its own, large user community within short time. Join them and benefit from our 3rd anniversary offer!

Buy 2 get 3 and save EUR/US\$ 699,-

If you order 3 licences of our Professional Edition of Poseidon for UML, you will only pay for the first and the second licence. Gentleware AG will waive the price of the 3rd licence! This stunning offer is only valid until December 18. So don't wait and click to see more details and benefit from our [3rd anniversary offer](#) now!

UML Seminars/User Meetings

Save time and money and book one of our UML seminars!

Reduce your learning curve by joining our seminars and learn from our **professional, didactic trainers** how to quickly start working with UML and how to **improve your software development skills**. Bring along your specific questions and benefit the utmost of our trainers' experience. This will save you lots of time and nerve-racking own experiments. Get back from our seminars and: **just model!**

Save money by booking one of our seminars: You won't only profit from an excellent UML modeling training but **get one Standard Edition of Poseidon for UML for free!** So you can immediately start working with UML after the seminar and try out your newly acquired UML modeling knowledge. How can you benefit more from a training! You get home and: **just model!**

As the interest for our UML modeling seminars has been overwhelming and our December seminar was sold out shortly after announcement we are happy we can now provide further dates. You can choose from a wide range of seminars within the world of UML modeling. So check out the dates now!

OOP fair Munich

Want to try out the brandnew preview of our upcoming **Enterprise Edition** and see exciting new features, live? Then come and meet us at the OOP fair at Munich where we will be presenting Poseidon for UML **from 20 - 22 January**. We are looking forward to your comments on this new edition and will be available for all your questions. In addition to the Enterprise Edition preview, you will also see a preview of our **new release 2.2 of Poseidon for UML**. If you want to make an appointment with one of our team members at the fair, please register [here](#).
