### Poseidon for UML release 2.3

---

#### Dear Poseidon User,

We proudly present release 2.3 of Poseidon for UML. While most of our competitors still don't know when or even if they will support UML 2.0, our new release already offers several UML 2.0 elements. Read on to see for yourself what else has been added to your favorite UML tool.

### Poseidon for UML 2.3 Released

---

Our latest release, Poseidon for UML version 2.3 is available now! Check out the improved UML 2.0 look & feel, and work with new **UML 2.0 elements** such as ports and connectors. You will also find more UML 2.0 elements, in excess of **100 enhancements**, and a new installer for the Enterprise Edition. And don't forget: if you are already working with a release numbered 2.x, this upgrade is free-of-charge for you!

### New Viewlets

---

Want an easy-to-handle demonstration of Poseidon for UML and see what the different editions can do for you? Have a look at our **viewlets**, where **audio and text explanations** will lead you through the Poseidon for UML edition of your choice. You will also find **online demos** with short introductions to special features.

### UML Certifications

---

Show what you know and participate in the **official UML certification program** to prove your UML knowledge. The exams are developed by the Object Management Group (OMG) in three different skill levels. They can be taken immediately after our UML seminars. Click here and learn how to earn your certificate.

### Requirements Engineering Plug-In

---

Good news for those working in **requirements engineering**. A new plug-in is available for the description of requirements within UML. You can capture requirements using special forms that extend use-case and activity diagrams. Designed in cooperation with Bernd Österreich (OOSE.de), this approach allows maintenance of both the requirements and the software model in one consistent document. Evaluate it now.

## Poseidon on Tour

We have just returned from CeBIT, the world's largest IT fair, where we presented the latest edition of Poseidon for UML: the Enterprise Edition. The interest in a **UML tool with team functionality** has been overwhelming. Missed us at CeBIT? No problem, your next chance to see a live demonstration of Poseidon for UML is coming in mid-May at the **Jax Conference** in Frankfurt, Germany. Click here to see pictures from CeBIT or to register for Jax.

## Live Online Webcasts

Because we had so many registrations for our **live online webcasts** in April demonstrating the team features of the Enterprise Edition of Poseidon for UML, we have arranged further dates. Join our technically-oriented one hour sessions, where our senior development engineers will provide you with a comprehensive overview of collaboration features. Take this opportunity for a quick introduction and register for one of the webcasts:
