### Expanded Modeling and Profiling Launched

---

#### Dear Poseidon User,

This spring has been a busy season for us at Gentleware. In addition to continuing to make improvements to Poseidon for UML, we've added a new product to our lineup with even more arriving soon. We are excited to show you all we have to offer - read on and discover our new related products...

### New Product Offering - Java Profiling

---

We are always on the lookout for products that make our work easier and more efficient. In the course of this search, we have come across a tool that we just can't keep to ourselves...

The P4 Profiler from Trifork is a powerful and user-friendly monitoring tool that enables the easy identification of bottlenecks in Java applications. The selective profiling technology in Trifork P4 results in an extremely low overhead of only 3-5%, much lower than other tools of this type. Combined with Java profiling that is especially useful within J2EE profiling, it allows you to inspect the behavior of applications running under heavy load in true production setups.

### Poseidon for UML - 3.1 Release Candidate

---

The Poseidon for UML 3.1 release candidate has been made available in order to get feedback from our users before finalizing the 3.1 release. We have spent a lot of effort in testing this release candidate, and we are especially interested in your comments.

The Poseidon 3.1 Release Candidate contains the following new features:

- . UML 2.0-compliant state diagrams
- . Complete copy/cut/paste of diagrams and semantic model elements
- . Customizable UMLdoc for HTML
- . Concurrent license server as a Windows service

Get ready to increase your productivity and boost your bottom line - try it today with a 30-day free evaluation.

## Website Relaunch

You may have noticed some changes to the Gentleware web site. We have revamped the site to include better usability, easier navigation, and more informative articles. The new organization means some of your bookmarks may no longer be relevant - please have a look around or contact us directly if you are looking for some specific information.

## Changes at Gentleware

The offices of Gentleware AG have moved within Hamburg, but only to comfortable new offices just down the street. Our shuffle has also included a new internal organization structure; we are proud to welcome to the Management Board Matthias Köster as Chief Technology Officer and Jens Gericke as Chief Operating Officer - Sales & Marketing, and offer our heartfelt congratulations.

## Readers' Choice Awards

Poseidon for UML has been presented with a Readers' Choice Award from Java Magazin, one of the most respected technology magazines in Germany. This is the third year in a row Poseidon has earned this honor. Many thanks to you for supporting your favorite UML tool, Poseidon for UML.

Now that we've won in Germany, we're hoping you'll help us top the awards in the United States as well. Poseidon for UML has been nominated for a total of four awards in three publications, and we'd appreciate your vote here as well.

» **Vote in the Readers' Choice Awards** 

---

Best regards,

Marko Boger  
CEO
