Apollo for Eclipse Update and openArchitectureWare Distribution

Dear Gentleware Customer,

The votes keep coming in, and Apollo for Eclipse is consistently among the top rated products at Eclipse Plugin Central (EPIC), the main portal for the Eclipse ecosystem (www.eclipseplugincentral.com/). We'd like to offer a heartfelt 'Thank You' for your votes!

openArchitectureWare also enjoys a high rating and user satisfaction on EPIC. Gentleware is a committer and strong advocate of this project, and starting today we would like to offer openArchitectureWare as a one-stop Eclipse distribution.

Apollo for Eclipse version 3.0 - Official Release

The support and suggestions from our users have guided our efforts to bring you the newest major release of Apollo for Eclipse, version 3.0. We're sure you will find the new release even more productive!

Download the newest version to experience the simplicity of exploring the neighborhood of a class and documenting it in a diagram.

New features include:

- Support for Eclipse Europa (Eclipse 3.3)
- Discovery functionality to explore related classes
- Array dimension support
- Configurable location of model files
- Migration to GMF 2.0
- Bug Fixes
- And more!

openArchitectureWare Eclipse Distribution

openArchitectureWare is an MDSG generator framework, capable of model-to-model transformations and code generation among other things. Gentleware is an active member of the openArchitectureWare community and member of the Eclipse Foundation.

As a convenience to our community, we are pleased to be able to offer the oAW framework bundled with Eclipse and all dependencies in a single installation.

Eclipse Summit Europe 2007

Gentleware was a proud sponsor of the Eclipse Summit Europe 2007, held in Ludwigsburg, Germany. It gave us the amazing opportunity to discuss the future of the EMF and GMF projects, as well as present several sessions. Presenters from Gentleware were: Dr. Marko Boger, Peter Friese, and Dr. Jan Köhnlein.
